Going Green and Staying Green: Options for Green Infrastructure Operation and Maintenance in Southeast Wisconsin

When: Thursday, September 18, 2014

Pick the time that works best for your schedule:

① 1:00 pm - 3:00 pm or ② 4:00 pm - 6:00 pm

Where: Milwaukee Metropolitan Sewerage District

260 W. Seeboth St., Milwaukee, WI 53204

[MMSD Commission Room]

Getting green infrastructure (GI) strategies on the ground (and on rooftops) is only part of the equation for reaching the FreshCoast 740 goal. These GI strategies need time and attention to make sure they are working as designed over time. Through these community conversations with MMSD, you'll learn about the operation & maintenance (O&M) needs of GI strategies and you'll have a chance to share your thoughts with MMSD on ways to get the GI O&M job done in southeast Wisconsin.

If you'd like to join the conversation, please RSVP to Lisa Sasso, MMSD LSasso@MMSD.com or at 414-225-2048 by Monday, September 15, 2014. For the full agenda and more information on MMSD's Regional GI Plan, be sure to check out MMSD's Fresh Coast 740 website at <http://www.freshcoast740.com/>

Please forward this invite to anyone that you think should attend.
